Passionate Full Stack Web Developer trainee with a background in Clinical Psychology with a record in building several frontend applications. Currently enrolled in the University of Birmingham Coding Bootcamp. Assets in problem solving, project planning, team building.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5

**Applications:** GitHub, GitLab, VS Code

**Tools:** JQuery, Bootstrap, Bulma

## PROJECTS

**Foodtopia | GitHub Repo:** [/foodtopia](#) | **Live application:** [/foodtopia/](#)

- Summary: a recipe app, which assists users with advanced dietary needs and an advanced mathematical calculator to present quantity of ingredients for catering services and to cater for larger parties
- Role: Front End developer – created HTML components using jQuery, injected data using third-party APIs as YouTube API and Spoonacular
- Tools: HTML5, CSS3, Bulma, JavaScript, jQuery & Google Fonts

**Weather Dashboard | GitHub Repo:** [/weather-dashboard/tree/dev](#) | **Live application:** [/weather-dashboard/](#)

- Summary: An app designed to provide users with weekly weather information based on city search criteria. The user can visualise current day weather conditions and a 5-days forecast
- Role: sole developer
- Tools: HTML5, CSS3, Bootstrap, JavaScript, JQuery & Font Awesome

**Daily Planner | GitHub Repo:** [/daily-planner/tree/dev](#) | **Live application:** [/daily-planner/](#)

- Summary: A daily planner application which would allow users to save events for each business hour (9AM to 5PM). It uses local storage to save user's activities
- Role: sole developer
- Tools: HTML5, CSS3, Bootstrap, JavaScript & JQuery

## EXPERIENCE

**Sense  
Support Worker**

**2019 - present  
Great Malvern, UK**

Supporting a group of young adults with learning difficulties and multi-sensory impairments to progress with interpersonal and living skills by providing one to one intervention in several environments: outdoor pursuits, arts & crafts workshops, indoor cooking sessions.

Key Accomplishments:

- Successfully supported a non-verbal resident to use his tablet as a support to express his wishes through autism assist applications
- Coordinated weekly shifts, which involved supervising each team member duties, organising activities, ensure safe-guarding and medication policies are implemented

## EDUCATION

**Certificate, Full Stack Web Development**  
University of Birmingham, UK

**2022**

**Bachelor of Science, Clinical Psychology**  
University of Worcester, UK

**2021**
